

PORTLAND AND JEANIE SEEN IN THE ICE PACK.

Revenue Cutter Thetis Is Standing by the Imprisoned Vessels==Prospects for the Boats Escaping Are Very Good.

PORTLAND, Ore., June 29.—A special agent from Port Townsend says the steamer Centennial reached port this morning, and one half day from Cape Nome, bringing news of the safety of the prisoners Jeanie and Portland.

She also brings word that the story of the loss of the United States revenue cutter Thetis is untrue.

The steamer Belvedere arrived at Cape Nome on June 29, and reported that the Jeanie and Portland were sighted in the ice pack on June 17, eighty miles north of Cape Prince of Wales, and the ice-bound islands.

The revenue cutter Thetis was standing by the imprisoned vessels.

The Jeanie and Portland were not injured by the ice and there are good prospects of the vessels escaping from the ice.

The Belvedere was in sight of both the Portland and the Jeanie and left them to return to Nome only after her officers had assured themselves that they could render no assistance to the beleaguered vessels.

At the time they were last sighted, the Portland had been out of Seattle, Nome-bound, for fifty-two days, and the Jeanie for forty-eight days. But signals from both vessels to the free vessels announced that all was well on board in each case, passengers well and food and water plentiful and general conditions cheerful.

Messages, however, carried the frank admission on the part of the officers of the imprisoned vessels that the feeling of cheerfulness was greatly augmented by the arrival on the scene of the Thetis, standing by ready to respond to any emergency signal.

The Centennial left Nome on the morning of June 29. The whaler Belvedere had arrived in port only a few hours before.

The Belvedere brought only the most meager information concerning the conditions on board the beleaguered vessels, as the only means of communication between them and the free vessels within their sight was by signaling and that process is slow and tedious.

QUEEN WILL BE IN BIG PROCESSION

Royalty Will Give Tradesmen a Chance to Get Even.

LONDON, June 29.—With the view of recompensing tradesmen and sightseers, so far as possible, for the disappointments of last week, tomorrow's and Wednesday's reviews of the Colonial and Indian troops will be accompanied by a certain amount of pageantry.

The Queen's anxiety has been so much allayed that she definitely decided today to occupy the first carriage in the Royal procession, in which other members of the royal family will participate, as well as the foreign princes who are still in London.

STREET FIGHTING AT AN END.

HAYTI TROUBLE SEEMS TO BE AT AN END AT PRESENT.

CAPE HAYTIEN, June 29.—The street fighting here yesterday between the partisans of M. Firmin, the former minister of Hayti at Paris, and General Alexis Nord, the minister of war of the provisional government, both of whom are candidates for the presidency of the republic, ceased at 7 o'clock yesterday evening.

Little damage was done by the bombardment of yesterday. M. Firmin's residence and the houses of his relatives have been completely pillaged.

The Haytian warship Crete-A-Pierot, on which the foreign consuls, under the protection of their respective flags, and M. Firmin sought refuge yesterday, is still in the roadstead. She is seeking to obtain a supply of coal so as to enable her to go to Port-au-Prince.

Peace seems to have been re-established here.

REJECTED OFFER OF THE RAILROADS

FREIGHT HANDLERS DEMAND THAT THEIR UNION SHALL BE RECOGNIZED.

CHICAGO, June 29.—A proposition made by the railroads to the freight handlers individually today was rejected by the latter.

The railroads proposed that committees, appointed by the employees of the freight houses, meet with the railroad superintendents to discuss the demands and admitted that some advance in wages might be justified. Having been warned that an attempt would be made to ignore their union, the men declined to be represented at any conference, unless the executive committee of their organization was present.

Such is the announcement made by Professor Woodworth of the Agricultural Department of the State University. The pest was first noticed in the grove of oak trees at the entrance of the campus. Communications sent to different parts of the State reveal the fact that the oak trees in all the counties surrounding the bay are full of the moths, and the work of devastation is already well started.

It was feared at first that after the devastation of the oak trees had been completed that orchards and other trees would be endangered. Professor Woodworth, however, denies that there is any such danger. The moth will

FOR TWO ROBBERSJUDGE MELVIN SAYS THAT THE
PEOPLE MUST BE
PROTECTED.

Walter T. Baldwin and James McCoy, the self-confessed robbers, who on May 3d, held up and robbed D. F. Holden of \$79 at the point of a pistol, were brought before Judge Melvin this morning for sentence. F. J. Thomas, a saloon man, was placed on the stand to testify as to the character of McCoy. He said he had known the young man for some time and stated that he had always appeared to be a gentleman.

Girardo, the female man, testified that he had known McCoy for two years, but could not speak for the prisoner's character.

Attorney L. Church made a plea for leniency, stating that McCoy was but 22 years of age and this was his first offense.

In pronouncing sentence, Judge Melvin said: "It has always been unpleasant to me to sentence a young man. He then followed with a statement that the people must be protected and sentenced McCoy to fifteen years in Folsom.

Walter Baldwin was next brought up. Max Goldsmith, a San Francisco man, was called to testify to the character of the prisoner. It was found that Baldwin had worked several weeks for the witness in San Francisco during the recent transister strike, but further than that he knew nothing of the young man.

Baldwin made a plea for mercy. He said he had come here from his home in Washington, D. C., a year ago and had been working up to two weeks prior to his getting into trouble. He stated that he had been sentenced to San Quentin instead of Folsom, as he could not stand the heat at the latter place. He was sentenced to fifteen years in San Quentin.

BERKELEY JANITORS NOT PLEASED WITH WHEELER. OAKLAND AND LOS ANGELES MAKE AN EVEN BREAK.

They Object to Doing Police Duty at the University—News Notes Gathered in the College Town.
Run—Oakland Cyclists Win the Relay Race.

BERKELEY, June 30.—The janitors of the State University are up in arms, and the cause of it all is that they have been ordered to do police duty at the doors of recitation rooms, to prevent anyone entering the classic halls, and there imbibing for knowledge, without first paying their registration fee of ten dollars.

This at least is the cause which has fanned their slumbering fury into flames. But black of it, if you are to believe them, is a tale of indignity after indignity to which they have been forced to submit. Not only do they declare that President Wheeler is breaking a State law in shortening their annual vacation from two weeks to one, but they say they have been forced to work more than the eight hours prescribed by law. Remonstrance has done no good. When they protested against the cut in their vacation, they were told that in all probability they would be allowed no vacation whatsoever next year. Then they have protested against their long hours, they have been met by the threat of a decrease in wages from \$80 to \$50, and additional work, such as police duty, has been piled upon them. And all this they say is but the beginning of an effort to force them out, in the hope of either put it off obtaining for the position either "cheap Japs" or referring President Wheeler's predilection for Eastern men, "talent imported from Cornell."

To one unacquainted with the situation it would seem that a Pelee had broken forth among the janitors. They candidly confess that they are afraid to organize. It seems that the University has the upper hand. The other hand put the whole matter upon a business basis. The janitors, they claim, are well paid and should not object to doing extra work, especially as nearly every one in the University is doing more than they are paid to do. As far as their hours and their vacation is concerned, they merely say that they do not come under the State law which deals with these matters inasmuch as they are hired by the month and not by the day.

EXPLOSION IN LABORATORY CAUSES ACCIDENT.

BERKELEY, June 30.—Bryant S. Drake, a graduate of the State University with the last class, came very nearly losing his eyesight on Saturday as the result of an explosion of gases, with which he was experimenting in the chemistry laboratory. Drake has been making some original investigations during the summer vacation. He was bending over an unusually difficult experiment, when the explosion occurred. The bottles and test tubes were shattered, and glass was thrown in all directions. Drake was severely cut by a piece of the flying glass immediately over his eye. This together with the noxious vapors, which escaped in the room rendered him very sick, and it was only after two physicians had worked over him for some time, that he recovered. He is now doing finely, and except for the cut on his head, apparently uninjured by the accident.

A reception will be tendered the young couple in the near future at the home of the bride's parents. They will make their home for the present in West Berkeley.

GLADIATOR A DEWEY SUCCESS

LARGE AUDIENCE AT THE OPENING OF THE DOWNING SEASON.

Just seventeen times last night did the curtain have to be raised to satisfy the large audience that witnessed the opening night's production of "The Gladiator" with Robert Downing in the leading role.

The last time Mr. Downing was in Oakland he appeared at the Macedonian Theatre and filled the house every night. The production of "The Gladiator" at that higher-priced theatre was not one iota more artistic than that now being given at the Dewey, and last night a crowded house at the Dewey showed its appreciation of this fact.

"The Gladiator" shows very clearly the conditions assailing the early church at the time when Nero was master of Rome. Of the three really great actors who have taken the part of the Gladiator, Nero, Forrest, McCullough and Downing, there seems to be no doubt, Downing is the greatest. Undoubtedly, however, the incident in "The Gladiator" is in the great arena scene where Nero and Origen have their exciting sword fight. Both Downing and Evelyn Blunkin who takes the part of Origen are expert swordsmen and the combat not only gone through with remarkable quickness but the scene, viewed simply as an exhibition of fencing is scientifically and remarkably interesting.

As "Plavian" Landers Stevens lends much weight to the production, which is beautifully staged and most faithfully acted. Every scene was received with marked favor as designed to the great actors who have taken the part of the Gladiator, Nero, Forrest, McCullough and Downing, there seems to be no doubt, Downing is the greatest. Undoubtedly, however, the incident in "The Gladiator" is in the great arena scene where Nero and Origen have their exciting sword fight. Both Downing and Evelyn Blunkin who takes the part of Origen are expert swordsmen and the combat not only gone through with remarkable quickness but the scene, viewed simply as an exhibition of fencing is scientifically and remarkably interesting.

The cast is as follows: "Nero," the "Gladiator," Robert Downing; "Plavian," Joseph Daney; "Origen," Evelyn Blunkin; "Tribune," Will R. Wallin; "Neophyte," O. W. Howe; "Eros," the "Fight Gaul," "Paustina," Fanny Gillette; "Hermia," Leilian Atwood; "Neodamia," Elsie Bond.

BOY RUN OVER BY THE BERKELEY TRAIN

Mistaking Shell Mound Park for the Golden Gate base ball park nearly cost Edward Nell, aged 17 years, his life yesterday. As it was he lost half his left foot, which was crushed by the wheels of the Berkeley local train. Nell resides at 511-2 Tehama street, San Francisco. He left the city with a valise and base ball bat yesterday morning intending to go to Golden Gate to play ball. As the train neared Shell Mound, Nell thought it was his destination and went out on the car platform. He lost his balance and fell off the rapidly moving train and barely escaped being thrown under the wheels. His left foot did not miss the car wheels and was so badly injured that partial amputation of the member was necessary. The injured youth was sent to the Receiving Hospital.

To the surprise of even themselves, the Los Angeles team, by taking both games yesterday, made it an even break with the Oakland on the series of the week. Three won, and three lost is the record they take South with them and still they are not happy. For while Mr. Morley's band was struggling hard to make it a close finish with the Oaklands, Uncle Hank's Ponies were beating Michael Fishers' team at Sacramento, and taking four straight passed the Los Angeles team in the league pennant race.

In the morning game here the Oakland had the crowd with them. It was one of the largest of the year, but the boys did not play to form and their own errors cost them the game by a score of 10-2. Hodson was touched up pretty lively, but with good support might have pulled his game out of the fire several times. Hartwell, the Angel twirler, was well nigh invincible. He was only touched up for three safe-ty hits. McCreddie got two of these and one of them was a home base hit. Eddie Householder carried off the batting honors for the Southrons. In four times up he secured a single, a two-bagger, a three-bagger and a home run.

In the afternoon game at Recreation Park, San Francisco 4-0, with Oakland on the short end tells the story. Pitcher Jones did the twisting for the Angels and kept the hard-hitting Oakland down to six singles. Mr. Cristall was found twelve times, but the gilt-edged work of his support saved him an awful drubbing.

Manager Pete Lohman was spiked by Hanlon in trying to cut off a run at the plate and was forced to retire. The umpire's call of "safe" failed to meet with the approval of the crowd. The score was as follows:

Eight to five tells the story of the afternoon encounter between the Senators and the Ponies at the Capital City yesterday. The Lawmakers found Merrieth for fourteen safeties and made four runs in the first inning, but even with this lead they could not win. Stricklett pitched good ball, but his support was of that frayed edge order of never counts for anything in the finish.

Oakland and San Francisco play here Wednesday afternoon and on Thursday the Angel-Senator series opens at Sacramento.

CLUB MEMBERS TAKE WALK ACROSS HILLS

Seventy-five pedestrians of the Olympic and Reliance clubs took a sixteen mile cross-country walk yesterday from Piedmont along the old road over the high hills into Moraga valley and back. The weather was torrid and the way hard and difficult, but the noonday rest in Moraga valley was made delightfully refreshing by the serving of a delicious luncheon sent on ahead by Walter Foster as caterer for the members of the Reliance Club, for they were hosts to the clubmen from the west side of the bay.

The tramp was the regular monthly jaunt of the Olympic pedestrians, combined with the outing of the Reliance walkers. It resulted in a cordial cementing of friendship between the two athletic organizations and celebrated in a way the determination of the Oakland clubmen to return to strictly amateur sport. At the luncheon hour, spent under the trees, there were numerous stories and some songs. James O'Garra and George James of the Olympic, and Stuart of the Reliance, made speeches.

No effort was made at competitive walking, but a pretty stiff gait was maintained all the way, the return of an hour and a half, with the whole crowd bunched at the finish. The Reliance walkers appeared in their walking uniforms, made of serviceable khaki suits, with knickerbockers, and looked as cool and natty that many of the Olympic men seriously discussed the idea of following the idea and the dress of the other club.

The members of the Automobile Club of California enjoyed a pleasant run yesterday to Mission San Jose. The automobilists crossed the bay by the Oakland Creek ferryboat, leaving San Francisco at 9 a. m., and on reaching the other side were met by the Alameda county chauffeurs.

George E. Whitney was captain of the run and set a good pace. On reaching Mission San Jose the San Francisco and Oakland automobilists were met by a large body of members of the San Jose Automobile club. Luncheon was served in the Callegos place, and the idea of returning in time to catch the 4 p. m. Creek ferryboat being abandoned, there was plenty of time for leisurely enjoyment. The following made the trip from San Francisco and Oakland: W. H. and Mrs. Kellogg and Miss Stille Kellogg; Dorville Libby Jr., P. F. Rockett, R. H. Hoag, Mrs. and Mr. Hoag, Mrs. Brinegar, H. T. McKnight and Dwight Porter, H. S. Jerome, C. A. Hawkins and Stanley Postley, Byron Jackson and son, Calvin C. Ell, Gordon Grant and E. McMullin, J. Rolle and Miss H. A. Stapler, Mrs. Stapler and children.

In the San Jose contingent were Dr. and Mrs. W. H. Crothers, Captain Frank Coykendall and Lieutenant Olson, C. H. and Mrs. Letcher, R. E. Connolly, Ralph and Mrs. Ralph Coykendall, Wilbur J. Edwards, A. H. Marton, Judge W. H. Hyland, Dr. C. C. Marckes, J. R. and Mrs. Welch, John S. Benipe, H. D. Merchant, C. P. Martin of St. Louis, S. T. Nichols of Indianapolis, Edward W. Sterling, W. There were some slight mishaps, but nothing of serious importance marred the outing, which was agreed to be the best the club has had.

CLUB MEMBERS TAKE WALK ACROSS HILLS

Seventy-five pedestrians of the Olympic and Reliance clubs took a sixteen mile cross-country walk yesterday from Piedmont along the old road over the high hills into Moraga valley and back. The weather was torrid and the way hard and difficult, but the noonday rest in Moraga valley was made delightfully refreshing by the serving of a delicious luncheon sent on ahead by Walter Foster as caterer for the members of the Reliance Club, for they were hosts to the clubmen from the west side of the bay.

The tramp was the regular monthly jaunt of the Olympic pedestrians, combined with the outing of the Reliance walkers. It resulted in a cordial cementing of friendship between the two athletic organizations and celebrated in a way the determination of the Oakland clubmen to return to strictly amateur sport. At the luncheon hour, spent under the trees, there were numerous stories and some songs. James O'Garra and George James of the Olympic, and Stuart of the Reliance, made speeches.

No effort was made at competitive walking, but a pretty stiff gait was maintained all the way, the return of an hour and a half, with the whole crowd bunched at the finish. The Reliance walkers appeared in their walking uniforms, made of serviceable khaki suits, with knickerbockers, and looked as cool and natty that many of the Olympic men seriously discussed the idea of following the idea and the dress of the other club.

The members of the Automobile Club of California enjoyed a pleasant run yesterday to Mission San Jose. The automobilists crossed the bay by the Oakland Creek ferryboat, leaving San Francisco at 9 a. m., and on reaching the other side were met by the Alameda county chauffeurs.

George E. Whitney was captain of the run and set a good pace. On reaching Mission San Jose the San Francisco and Oakland automobilists were met by a large body of members of the San Jose Automobile club. Luncheon was served in the Callegos place, and the idea of returning in time to catch the 4 p. m. Creek ferryboat being abandoned, there was plenty of time for leisurely enjoyment. The following made the trip from San Francisco and Oakland: W. H. and Mrs. Kellogg and Miss Stille Kellogg; Dorville Libby Jr., P. F. Rockett, R. H. Hoag, Mrs. and Mr. Hoag, Mrs. Brinegar, H. T. MOVABLE STAGE FOR FRUITVALE.

INTERESTING NOTES GATHERED
IN THE EASTERN END OF
THE CITY.

FRUITVALE, June 29.—A movable stage has just been completed at the Fruitvale Armory. It was built by Contractor Martha Hauser and is a great addition to the armory. The stage can be moved to any part of the building and will be used for giving entertainments and various church exercises.

A new street has been built through the field between Merrill avenue and High street. The new street is well graded and it is stated that several new houses will be constructed in that vicinity within a short time.

READY FOR THE FOURTH.
Fruitvale Degree of Red Men have almost completed arrangements for their Fourth of July picnic, which will be given at Glen Park. A large attendance is expected.

PORTLAND CREW
HAS ARRIVED.
The Portland crew which will take part in the rowing races on the lake on the fourth of July arrived in Oakland this morning and immediately began training for the regatta.

THE BOYS ARE VERY MUCH INCENSED at the following telegram that appeared in the San Francisco papers:
"PORTLAND, Ore., June 28.—The Portland Rowing Club crew, which left tonight for California to take part in the Oakland regatta, does not have the best wishes of all the members, a number of whom, including two directors, declare the crew has no right to represent the club. The crew consists of President Richard C. Hart, Secretary Samuel Linder, Captain Percy Stowell and Roy Dunham. They had agreed to try out for the privilege of making the California trip, but when it came to show down last night they refused, saying they had decided to go themselves, and, inasmuch as the transportation to Oakland was sent to the secretary and three of the crew members, they had their own way."

AN INDIGNANT MEETING WAS HELD last night at the rowing club headquarters, but no action was taken, as nothing could be done without the board made the statement today that it was generally believed a stronger crew could be sent south.

IT HAS BEEN LEARNED THAT THE CREW is a thoroughly representative one and that the trouble in Portland is being caused by a few who were not permitted to come here because they are inferior oarsmen.

WALTER ERIKSON, the 15-year-old boy who was accidentally shot in the left lung about two weeks ago, underwent an operation at the Receiving Hospital this morning. The bullet had fractured two ribs, pieces of which were protruding from the lung. To relieve this distress, Dr. Larson and Dr. Dodge this morning removed three inches of the two fractured ribs. The operation was very successfully performed.

HEBREW SCHOOL
AT THE SYNAGOGUE
The Hebrew School being conducted under the auspices of Rabbi A. Myers in the vestry of the Beth Jacob Synagogue on Harrison street is a success. Instruction is given on Sunday, Monday, Wednesday and Thursday. Efficient instructors are employed. They teach the Hebrew language and traditions. Sunday is given over to teaching history.

PEOPLE WANT A DIVISION OF EDEN TOWNSHIP

PETITION IS NOW BEING CIRCULATED IN THE COUNTRY.

HAYWARDS, June 29.—Active steps are now being taken by the residents of Eden township to be it divided. A petition requesting the Board of Supervisors to effect division was circulated in Haywards last week. It was readily signed by citizens of this place.

This sudden move by the part of the residents of Eden township was due to the recent change made by the State Legislature in the County Government Act, which states that each township shall have one justice and one assessor. The petition is being circulated in Eden township, which is a large township and is divided into several districts.

A valuable suggestion has been offered in the case of annexing to the San Leandro district, the district between that place and Pittsburg which would include Elmhurst. As it now stands all justice court matters in Elmhurst have to be taken to East Oakland, a distance of several miles, and should that district be included in the San Leandro district, it would lessen the burden to a justice court.

THE NEW SPARKLING SYSTEM established in Eden Valley by Supervisor J. R. Takouti is now being put to use. The system consists of 25 hydrants distributed along the roads of the Valley and connected with the dam at New Canyon. The new system is a great saving over the old one and was constructed under the direct supervision of Mr. Takouti, who also originated the plan. A number of horse troughs have been constructed along the new pipe line.

THEYRA LADGE, Society Dana held its tenth annual picnic yesterday at San Lorenzo Grove. The affair was largely attended and was a success. During the day a dance took place in the pavilion, the music being furnished by the Foresters' Band of this place. A fine dinner was also served. The success of the affair was largely due to the efficient work of the principal committee consisting of Harold Thoun, Peter Johansen and N. A. Christensen.

MILLIONS FOR CONSTRUCTION.

BURLINGTON COMPANY HAS
SPENT OVER \$18,000,000 IN
BUILDING DOUBLE TRACKS.

To such a large extent does new double-track road predominate in the Burlington Route's main line through Iowa that it might well be called the New Burlington. During a period of reconstruction extending over the past three years more than \$18,000,000 has been spent in building double track, reducing heavy grades and eliminating sharp curves. The result is a new line as perfect as modern engineering and good workmanship can make it.

In this vast work no effort has been made to conform to the old single-track main line. Mile after mile of it has been abandoned and the new line located far distant in many instances. There is more to be done before the 255-mile stretch between the Mississippi and Missouri rivers will be entirely double-tracked. The work is going forward as rapidly as up-to-date machinery and an army of men can do it.

Last year twenty-seven miles of new double-track was put in service, replacing the old single-track main line. Sixteen miles of parallel second track was also opened for traffic, between Prescott and Nodaway. The heaviest double-track cut-off was that between Murray and Creston, where for a distance of twenty-five miles the old main line was abandoned, except through stations and at one or two other points.

The grading on this line averaged 120,000 cubic yards per mile over the entire distance, a total of 3,000,000 cubic yards of earth. All the principal streams are crossed at heights of from sixty to seventy feet above their beds, while the cuts through the hills range from fifty-five to sixty feet in depth. The early engineers, in locating the old main line, worked to a maximum grade of seventy feet to the mile and three and a half degree curves. While this grade enabled the road to cross some of the main ranges with cuts thirty feet deep, and the main streams with bridges from fifteen to thirty feet in height above their beds, the topography of the country was such as to call for the excessive use of sharp curves.

The new line has no grades exceeding thirty-five feet per mile and no curves sharper than one degree. In addition to the enormous saving in distance, the new line has been shortened about ten percent. All bridge and culvert work is of a permanent character. Four iron bridges, ranging from two hundred to six hundred feet in length, cross the new line over the principal streams. One of the great changes is shown in the new line passing over another railroad between Afton and Thayer, while the old line passed under that road. At the present time thirty miles of new double-track cut-off line, which is to replace the present main line, is under construction from Street to Ottumwa, from Creston to Prescott, and from Nodaway to Red Oak. The cut-off between Street and Ottumwa is about six and one-half miles long. The principal feature of this piece of work is the all-steel sugar Creek trestle, east of Ottumwa, which, at its highest point, is about seventy feet above the bed of the stream. It will require 225,000 cubic yards of earth.

The cut-off line between Creston and Red Oak is one of the heaviest pieces of work so far undertaken in the all-steel main line through Iowa. The grading on this stretch will average 160,000 cubic yards per mile over the entire distance. The cut through the summit, just east of Villisca, will require 32,000 cubic yards of earth. The fill just west of Villisca will require 70,000 cubic yards of earth, while that south of Villisca will require 100,000 cubic yards of earth. The grading used on these lines is the same as used on the Murray-Creston cut-off, namely, a grade of thirty-five feet per mile and one degree curves.

WIFE IN COURT
THEY WERE BOTH INTOXICATED
AND WERE CAPTURED BY

For the first time in the history of Oakland's police court a husband and wife sat side by side in the prisoner's dock waiting to plead guilty to a charge of drunkenness.

THEY WERE ARRESTED late yesterday evening by Officer Forke at Golden Gate and Alameda avenues.

SAN LEANDRO MAN UNDERGOES AN OPERATION.

J. NORRIS HAS HIS HAND AMPUTATED BY DR. CLARK.

SAN LEANDRO, June 29.—J. Norris, a well known citizen of Tucson, Arizona, underwent the serious operation of having his left hand amputated last Friday. The operation was performed by Dr. W. A. Clark of the County Infirmary, at the Central Hotel in this place. Some two years ago Mr. Norris, while leading a horse and with an accident. The horse jerked a halter through Norris' hand, which badly lacerated the thumb. The wound never healed, it having become infected with disease. Leading physicians had advised him to have the hand removed and coming to this place Mr. Norris underwent the operation. It was witnessed by Drs. Smith, Miller, Torney and others of this place. It was very successfully performed and it is thought that the patient will suffer no further inconvenience from the disease. Mr. Norris is the husband of a San Leandro girl, who was formerly Miss Doris Seales. He is a well known newspaper man, having been connected at different times with the leading newspapers of Arizona.

A FAREWELL PARTY.
A farewell party was given recently in honor of the Misses Florence and Elsie Dornell by Miss M. A. Perry. The Misses Dornell, who reside in Dunsmuir have been visiting for some time at the Perry home in this place. The party was attended by a large number of young people and most enjoyable evening was spent with games and refreshments. The following were present: M. A. Perry, Edward Coughman, Ernest Reicher, Louis White, George E. Fulton, Charles Selley, Doris White, Stella Perry, Margarette Perry, Elinda Roberts, Alice Roberts, Mable Smiley, Lizzie Woods and others.

GRADING THE ROAD.
The final grading of the road over the big central arch has been commenced. The fill has been allowed to settle during the rainy season and the Stone Company consider that ample time has been allowed for the earth to settle. The road will now be carefully graded and macadamized. A concrete sidewalk will be built on either side of the bridge and the structure will then be completed. The fall during the time it has been allowed to settle has in a depth of several feet. At one time it sank beneath the big water main and caused a great deal of trouble. It is now required, however, to be built on a firm foundation through the rainy season without any mishap. The work of grading and building of the sidewalk will require several weeks in which to be completed.

REQUIRED MORE HANDS.
The Southern Pacific Company has added another man to its local depot force. This addition was made owing to the great increase of shipments from the station. There are now four men at the station who are kept busy all the time handling the fruit and vegetable shipments. Agent McLaughlin announces that the business of San Leandro station is growing each year. The business has increased and the importance of the station as a shipping point the company may shortly build a new station house for San Leandro.

HAS GONE TO FRESNO.
Fred Williams, formerly a contractor of this place is carrying on an extensive building trade in Fresno. He was a recent visitor at the home of his brother, J. W. Williams, of this town. NEBRASKA VISITORS.
Mr. and Mrs. C. Ziegler, of Omaha, are guests of Mrs. Ziegler's brother, Nels Olferson. They will go from here to Los Angeles and from there to Oregon before returning to their home.

INJURED HIS LEG.
This morning Manuel Cato, a Portuguese employed at the Pugal Sound Lumber yard, was injured at the Receiving Hospital for a severe contusion of the left leg. While working in the lumber yard a pile of heavy lumber slipped and fell, pinning the man's leg to the ground. The leg was not broken, but severely bruised, and the man was carried to his home, 543 Nineteenth street, in a buggy.
